NOTES:

From CTG 88.1 to TG 88.1

1. Amphibious elements of Task Force 88 should take justified pride in the successful completion of the U. N. Guinea Troop lift from Matedi to Conakry. Entire operation not only was performed with impressive Military efficiency but the individual conduct of Navy and Marines Corps Personnel established a standard of Americanism that will be remembered long after we are gone. Well done and deeply appreciated.
2. The movie for tonight is "THE BUCCANEER" with Yul Brynner & Claire Bloom.
